DETAILED ACTION

Claims 7 and 9-11 are presented for examination.

A request for continued examination under 37 C.F.R. 1.114, including the fee set forth in 37 C.F.R. 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 C.F.R. 1.114, and the fee set forth in 37 C.F.R. 1.17(e) has been timely paid, the finality of the previous Office Action has been withdrawn pursuant to 37 C.F.R. 1.114. Applicant's submission filed December 17, 2008 has been received and entered into the present application. Claims 7 and 9-11 are pending and are herein examined on the merits.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 7 and 9-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Wissner et al. (US Patent No. 6002008).

Wissner et al. teach the general formula of compound I. Wissner et al. further teach that tyrosine kinase inhibitor prevents injury that results from vascular endothelial growth factor and is known to increase in the vascular endothelial permeability in the affected tissues (see col. 3, lines 25-32). Thus Wissner et al. anticipate all of the instant claims.

Conclusion

No claim is allowed.
